#### Comment on Figures:

- Q4 sales grew 16% in Euro terms. Organic growth reached 13%, i.e. a slowdown of 10pp from the excellent 23% OSG in Q3. The gap between organic and reported sales growth narrowed to just 3pp, as Smaato is now in the prior-year comparison base and the inorganic component is now mainly comprised of AxesInMotion.
- Adj. EBITDA margin increased 5pp yoy reflecting efficiency gains and, to a lesser extent, a positive mix effect from the AxesInMotion acquisition.
- The higher EBITDA adjustments reflect one-time costs for the relocation of the headquarters to Sweden, the staff-cut of 50 FTEs and M&A.
- Net debt declined by EUR 33m to EUR 275m in the quarter. This was largely driven by the sale of receivables, using attractive financing conditions (prime rate +1.55%). Thus, the receivables collection period is now back to the 2019/2020 level, i.e. before the ad-tech push.
- MGI reported strong Q4 figures, beating our estimates and reaching the very top end of its increased guidance for sales of EUR 315-325m and adj. EBITDA of EUR 83-93m. In 2022 ad-software revenues comprised 80% of sales (+11pp yoy) and the transformation from gaming to adtech is now fully reflected in the figures.
- The slowdown in organic sales growth and the lack of guidance have been somewhat diluting the positive message of the strong Q4 earnings beat. That said, this should be seen against the background of a generally weak online advertising and gaming market, e.g. online advertising in Germany declined 7% in Q4. Besides, MGI was facing very strong comps in Q4 (+36% OSG). Despite the weak market environment, MGI's customer base still grew 32% yoy. Once MGI is no longer facing a double-digit percentage decline in CPMs, this should lead to a return to significant double-digit sales growth. We thus expect an acceleration of sales growth in H2 2023 as the company will then be comparing against a period with weak CPMs. We confirm our Buy rating and EUR 4 price target.

#### Comment on Changes:

- We stick to our 2023 & 2024 sales and EBITDA estimates
- Our net income and EPS estimates decline, as we now base our estimates on a EURIBOR of 3% for MGI's outstanding floating-rate debt.

# **Company Background**

- MGI is an advertising software platform that helps advertisers efficiently acquire customers via smartphones, computers, connected TV or DOOH as well as publishers optimally monetize their advertising space
- MGI has its own games portfolio with >5,000 casual & mobile games and >10 premium games with a total of >1bn registered players. In addition, MGI's SDK's are integrated into the apps of >5,000 publishers.
- MGI one of the largest proprietary first-party data platforms. First-party data enables better targeting as well as greater transparency in reporting and monitoring of advertising campaigns.
- MGI is one of a few providers in the Open Internet covering the entire value chain. The advantage of a full stack approach is that all processes between the advertiser and the publisher are integrated in one platform.
- The MGI business model is based on a flywheel that is driven by the software platform synergies between advertising technology and games. This relationship can be further accelerated by both M&A and innovation.

## **Competitive Quality**

- The combination of ads & games allows MGI to optimally sell the ad-spaces in the games and leads to more efficient user acquisition representing a significant competitive advantage for the Company's own games portfolio.
- The high share of first-party data reduces vulnerability from fraud. It also makes MGI's Advertising Software Platform less reliant on third-party data, which are increasingly regulated.
- MGI's stack approach leads to improved measurability of campaign success and more targeted identification of appropriate user profiles, i.e. higher ROI for advertisers & better monetization for publishers.
- The strong proprietary games portfolio (i.e. more first-party data) will lead to more advertisers using MGI for user acquisition as they can reach a broader audience in a more targeted way (i.e. higher ROI).
- This in turn attracts more publishers who also want to monetize their ad inventory via MGI's Ad Software Platform, as there is higher demand and as the ability to sell their ad inventory at a higher price.

This research report ("investment recommendation") was prepared by the Warburg Research GmbH, a fully owned subsidiary of the M.M.Warburg & CO (AG & Co.) KGaA and is passed on by the M.M.Warburg & CO (AG & Co.) KGaA. It is intended solely for the recipient and may not be passed on to another company without their prior consent, regardless of whether the company is part of the same corporation or not. It contains selected information and does not purport to be complete. The investment recommendation is based on publicly available information and data ("information") believed to be accurate and complete. Warburg Research GmbH neither examines the information for accuracy and completeness, nor guarantees its accuracy and completeness. Possible errors or incompleteness of the information do not constitute grounds for liability of M.M.Warburg & CO (AG & Co.) KGaA or Warburg Research GmbH for damages of any kind whatsoever, and M.M.Warburg & CO (AG & Co.) KGaA and Warburg Research GmbH are not liable for indirect and/or direct and/or consequential damages. In particular, neither M.M.Warburg & CO (AG & Co.) KGaA nor Warburg Research GmbH are liable for the statements, plans or other details contained in these investment recommendations concerning the examined companies, their affiliated companies, strategies, economic situations, market and competitive situations, regulatory environment, etc. Although due care has been taken in compiling this investment recommendation, it cannot be excluded that it is incomplete or contains errors. M.M.Warburg & CO (AG & Co.) KGaA and Warburg Research GmbH, their shareholders and employees are not liable for the accuracy and completeness of the statements, estimations and the conclusions derived from the information contained in this investment recommendation. Provided a investment recommendation is being transmitted in connection with an existing contractual relationship, i.e. financial advisory or similar services, the liability of M.M.Warburg & CO (AG & Co.) KGaA and Warburg Research GmbH shall be restricted to gross negligence and wilful misconduct. In case of failure in essential tasks, M.M.Warburg & CO (AG & Co.) KGaA and Warburg Research GmbH are liable for normal negligence. In any case, the liability of M.M.Warburg & CO (AG & Co.) KGaA and Warburg Research GmbH is limited to typical, expectable damages. This investment recommendation does not constitute an offer or a solicitation of an offer for the purchase or sale of any security. Partners, directors or employees of M.M.Warburg & CO (AG & Co.) KGaA, Warburg Research GmbH or affiliated companies may serve in a position of responsibility, i.e. on the board of directors of companies mentioned in the report. Opinions expressed in this investment recommendation are subject to change without notice. The views expressed in this research report accurately reflect the research analyst's personal views about the subject securities and issuers. Unless otherwise specified in the research report, no part of the research analyst's compensation was, is, or will be directly or indirectly related to the specific recommendations or views contained in the research report. # DISCLOSURE ACCORDING TO §85 OF THE GERMAN SECURITIES TRADING ACT (WPHG), MAR AND MIFID II INCL. COMMISSION DELEGATED REGULATION (EU) 2016/958 AND (EU) 2017/565

The valuation underlying the investment recommendation for the company analysed here is based on generally accepted and widely used methods of fundamental analysis, such as e.g. DCF Model, Free Cash Flow Value Potential, NAV, Peer Group Comparison or Sum of the Parts Model (see also <a href="http://www.mmwarburg.de/disclaimer/disclaimer.htm#Valuation">http://www.mmwarburg.de/disclaimer/disclaimer.htm#Valuation</a>). The result of this fundamental valuation is modified to take into consideration the analyst's assessment as regards the expected development of investor sentiment and its impact on the share price.

Independent of the applied valuation methods, there is the risk that the price target will not be met, for instance because of unforeseen changes in demand for the company's products, changes in management, technology, economic development, interest rate development, operating and/or material costs, competitive pressure, supervisory law, exchange rate, tax rate etc. For investments in foreign markets and instruments there are further risks, generally based on exchange rate changes or changes in political and social conditions.

This commentary reflects the opinion of the relevant author at the point in time of its compilation. A change in the fundamental factors underlying the valuation can mean that the valuation is subsequently no longer accurate. Whether, or in what time frame, an update of this commentary follows is not determined in advance.

Additional internal and organisational arrangements to prevent or to deal with conflicts of interest have been implemented. Among these are the spatial separation of Warburg Research GmbH from M.M.Warburg & CO (AG & Co.) KGaA and the creation of areas of confidentiality. This prevents the exchange of information, which could form the basis of conflicts of interest for Warburg Research GmbH in terms of the analysed issuers or their financial instruments.

The analysts of Warburg Research GmbH do not receive a gratuity – directly or indirectly – from the investment banking activities of M.M.Warburg & CO (AG & Co.) KGaA or of any company within the Warburg-Group.

All prices of financial instruments given in this investment recommendation are the closing prices on the last stock-market trading day before the publication date stated, unless another point in time is explicitly stated.

M.M.Warburg & CO (AG & Co.) KGaA and Warburg Research GmbH are subject to the supervision of the Federal Financial Supervisory Authority, BaFin. M.M.Warburg & CO (AG & Co.) KGaA is additionally subject to the supervision of the European Central Bank (ECB).
